

Re-scope:

- Focus on the retrieval process (only flap or more?)
- Height
- Flap
- Drawer
- Tool
- Sensor
- Step trashcan — step on lever and lid opens
- Better flap — oil, shorten anti-theft

Rough requirements:

- Minimal Force
- Realistic
- Physical -> avoid the use of software
- No awkward movements

“Convenient”:

- Should be fast to “get the snack”
- Out of the way for passerbys

Favourite solutions:

- Snack comes to you rather than you having to retrieve the snack (sketch prototype)
 - Dropping outside
 - Snack getting dispensed onto a tray outside instead of
- Sensor (no need to open flap yourself) - Vaisnavi
- Drawer - Addy
- Sliding door opening - Helen
- One way flap inside (physically made prototype) - Alina
- Tools
 - Grabber (claw) - Yvonne
 - Scooper - Addy
- Take into consideration:
 - Height
 - Theft
 - Software
 - Payment methods
